

Individual Project Report

Harlingen CISD Clothing Closet

Project Description

1. Describe the project. What was done, when, and where did the project activities take place?

We provided appropriate school clothing to (40) students in need, ages ranged from 4-18 or pre-k thru high school.

Rotarians were matched up with a student and then took the child on a shopping “experience” at Target. We partnered with HCISD parental involvement department and Target to make this event a success. The event took place on Saturday, October 22, 2016.

2. How many people benefited from this project?

The (40) selected children and their families as well as dozens of Rotary and Parental Involvement volunteers benefited from the experience.

3. Who were the beneficiaries, how were they impacted by this project, and what humanitarian need was met?

The beneficiaries of the clothing closet and of this project were some of the neediest Harlingen school district children as identified by the parental involvement department. The humanitarian need that was met was an overall improvement to the children in their general welfare.

4. How many Rotarians participated in this project?

30

5. What did they do? Please give at least two examples, not including financial support provided to the project.

The Rotarians took the children on an individual shopping experience as well as gave the children one on one time with a leader within their community. Several Rotarians exchanged information with their selected child and made plans to continue their friendship.

6. If a cooperating organization was involved, what was its role?

There were (2) organizations we partnered with to make the project a success.

Target: Their role was to allow us to have open access to the store and provided popcorn and snacks to the families.

HCISD Parental Involvement: They identified the (40) children as well as helped the day of the event with additional volunteers.
