

Individual Project Report

Shade for Shelter Animals

Project Description

1. Describe the project. What was done, when, and where did the project activities take place? - The project was completed at Palm Valley Animal Center on April 22, 2019. Members of the McAllen South Rotary Club with the help of Alamo Systems (contractor) erected a 12'x12' shade structure at the intake area so that rescue animals, employees, and potential adopters would not have to stand and wait in the blazing, South Texas sun.

2. How many people benefited from this project? - It is impossible to say how many people benefit from this project. Palm Valley Animal Center adopts approximately 4,000 animals per year. Every employee and adopter that goes to Palm Valley Animal Center looking adopt will benefit from this project, along with countless rescue animals.

3. Who were the beneficiaries, how were they impacted by this project, and what humanitarian need was met? - Every employee and adopter that goes to Palm Valley Animal Center looking adopt will benefit from this project, along with countless rescue animals.

4. How many Rotarians participated in this project? - 10

5. What did they do? Please give at least two examples, not including financial support provided to the project.- Painting of the steel structure and fastening of the roof system.

6. If a cooperating organization was involved, what was its role?
