Good Afternoon,

We are so grateful for this wonderful opportunity for students to learn to swim. These students started off with zero skills and many of them are now able to swim across the entire length of the pool. We had students who learned to swim in three weeks and even participated in the Mock Swim Meet. We have several students who were trembling the first day and by the last day were able to swim and float. We have some videos we can send as well and would be happy to present at one of the meetings. Thank you again for making a difference in the lives of our Evans Students. Without this monetary donation our students would not have been able to learn to swim.

4. How many Rotarians participated in this project?

3

5. What did they do? Please give at least two examples, not including financial support provided to the project. Dr John and Wilson coordinated with the schools and the swim instructor.

We initial thought we would have 2 schools involved in the project which accounted for our original budget projections. Since we under used the dollars we ask for we will be returning 1430.00 to the district Grant Funds
